SIN LIFE PILLOWS
Sheryll Thomas
Stephen Geddes

This post is dedicated to my mate , Josh, who passed away earlier this year.Josh was a legend, a pioneer orgonite maker and gifter and will be sadly missed.But I feel he'd be excited to have his innovative techniques shared

The Resin Life PillowThe original Life Pillow came in a quality soft leather wallet that was carried with you...You could wave it over food, water , medications , smokes , alcohol , pain..etc...it had the ability to change the spin of anything harmful in the target, resulting in improved taste and somewhat safer. This is the original info.....

http://orgoniteplus.net/Forum/viewtopic.php?f=2&t=7

A bit later Josh revealed his formula for making the Resin Life Pillow, a somewhat hardier and long lasting technique and stronger than the original leather wallet.What a guy. !!!!....typical of his sharing and caring nature.

http://orgoniteplus.net/Forum/viewtopic.php?f=2&t=936 (no longer available) But info can be found on this site.

I must say, these Resin Life Pillows are among the best pieces I make and really do work as claimed ....truly amazingPlease take the time to research Josh's Forum ...orgoniteplus.Truly one of the most innovative orgonite forums around without the fantasy and BS.

And to Josh , mate , you are legend , I tip my hat and raise my glass ...cheers ! (6 photos)

Robert Virginie Hi Sheryll & Stephen, Links are down. Would you still have the recipe for the life pillows?

Stephen Geddes Ground kelp seaweed ,,,crushed quartz ..5 types ..citrine, amethyst, rose ,clear and smoky in equal amounts.....for 1 litre of ground kelp, add 2 tablespoons of ground quartz and a handful of beachsand...mix well ...if using in resin, mix well to a t...

Robert Virginie Hi Stephen, Thanks for that, I did see the original post but wondering about a few things. It doesn't seem to have any metal shavings at all. The Orgonizeaustralia post also shows sea shells. Do they help with the energy? and the original life pillow had other herbs and rare earths. Would you know what they are? Thank again.
Stephen Geddes That was Josh's exclusive , 23 minerals, gems and rare earths...he trialled many things , but that formulae above , he shared with me before his passing...in his revealing his formulae on ogoniteplus, he said that quality beachsand and kelp seaweed was...

Robert Virginie Great, Thank you. I'm thinking of adding some canabis extract and comfrey for their healing properties and some other healing stones too.

Stephen Geddes Love to hear how they come out,,,maybe a picture or two would go down well too.
Robert Virginie Won't get back into making any orgonite until next month and will share the outcome them.

Stephen Geddes Ground kelp seaweed ,,,crushed quartz ..5 types ..citrine, amethyst, rose ,clear and smoky in equal amounts.....for 1 litre of ground kelp, add 2 tablespoons of ground quartz and a handful of beachsand...mix well ...if using in resin, mix well to a thick but pourable consistency...you may need a bit extra hardener.....when poured and hardened , do a double dip in the same mould to ensure completely sealed as the pillow mix will .blister out due to it's volatility with any moisture.....

Stephen Geddes That was Josh's exclusive , 23 minerals, gems and rare earths...he trialled many things , but that formulae above , he shared with me before his passing...in his revealing his formulae on ogoniteplus, he said that quality beachsand and kelp seaweed was sufficient to work...in his resin life pillows, he used acorn caps..., they contained the growing end...hollow space... sacred geometry to resonate through the piece...the pillow mix he sent me to trial got through customs

here (they had already taken a leather life pillow apart) but not the pile of acorn caps accompanying the mix...on emailing him (we shared a lot of stuff) I asked if sea shells would work as they contained the Fibonacci spiral,, , he got excited and said yes indeed which he started using as well.... so the acorn caps and seashells help to resonate the frequency...(sacred geometry)

About time I shared this great new technique...I've been trialing for a couple of months now.
It's called Josh's Life Pillow and can be ordered from Joshlifepillow.com

Basically, it's a soft leather pouch containing 23 diff. gems, crushed, two rare earths and three herbs.
When you pass it over food, water , virtually anything , it reverses the harmfull negative
spin to a positive within a second. If something is harmful to us , it has a neg. spin, the
more poisonous, the stronger the spin. I emailed Josh...was this spin stuff at the electron
level or what ?
..He replied that a collegue of his former work stated the if you focus a special beam at an object and capture its reflection you can see the spin state. He could see this reversing
using the Life Pillow but could not understand why and how quickly this was happening.

So what does this mean?

By passing the Life Pillow over a substance..within a couple of cm... it will be "purified" .
Food tastes wonderful...plain homecooked throw together tastes gourmet....every night !

Take away junkfood....if you like that stuff .....actually can be eaten safely and taste good !
Water is charged to taste sweet and lively...leaving a crisp tingle on your tongue...totally
enjoyable....chlorine taste just disappears

The Life Pillow also has a profound benefit to one's health.
I took my pillow to school and showed students how to use and passed around.

when I mentioned energising water...there was a rush on pillowing their waterbottles...it was
just priceless watching their surprised faces when drinking the energised water..
Couple of times there was a fall or accident in the playground...the pillow was held over the pain
and eased considerably in a couple of minutes.....the students hunted out the pillow at recess and
lunch time to pillow their food...kids are great at trialling stuff...they don't bullshit..

My phd science mate stated that he could feel energy travelling up his arm when he held the
pillow. He said it might work on energy meridians as in accupuncture points...as the energy
centered around a blockage in his shoulder and freed it up ! Then he was totally blown away
when we pillowed a glass of water and compared tastes to a second glass.

I pillow water used in drinking of course but also for energising water for plaster orgonite.
I sleep with the pillow and have noticed the whites of my eyes much clearer and the red veins
shrinking.

A friend ordered 2 Pillows through me, after playing with mine, The day I delivered them, she had
a painful crinked neck. She sat among the desk full of paperwork , holding one pillow either side of
her cup of tea . After about 20 seconds, she moved her head from side to side and said she heard
a click and then with a huge smile stated that the pain has vanished. ! !
A week later she rang saying how fantastic the pillows were and asked me to order 3 more !!
Lucky family and friends I reckon.
I've heard many reports of arthritis sufferers reporting relief and symptoms disappearing by using
the pillow as a squeeze device in the hand...

All sounds too good to be true.?
I hold a pillow either side of the fuel hose when filling the car...
Just scraping the surface for uses of Life Pillow,

I'm looking forward to my gourmet meal tonight.....as usual. !
Master Chefs....eat your heart out.....Ha Ha

Further info can be found at.....OrgonitePlus.net

Yo.....Enjoy !
